

CLOSING CONFERENCE

INTERREG 4A-2seas IDEA PROJECT

Improving Drugs Efficacy and Availability

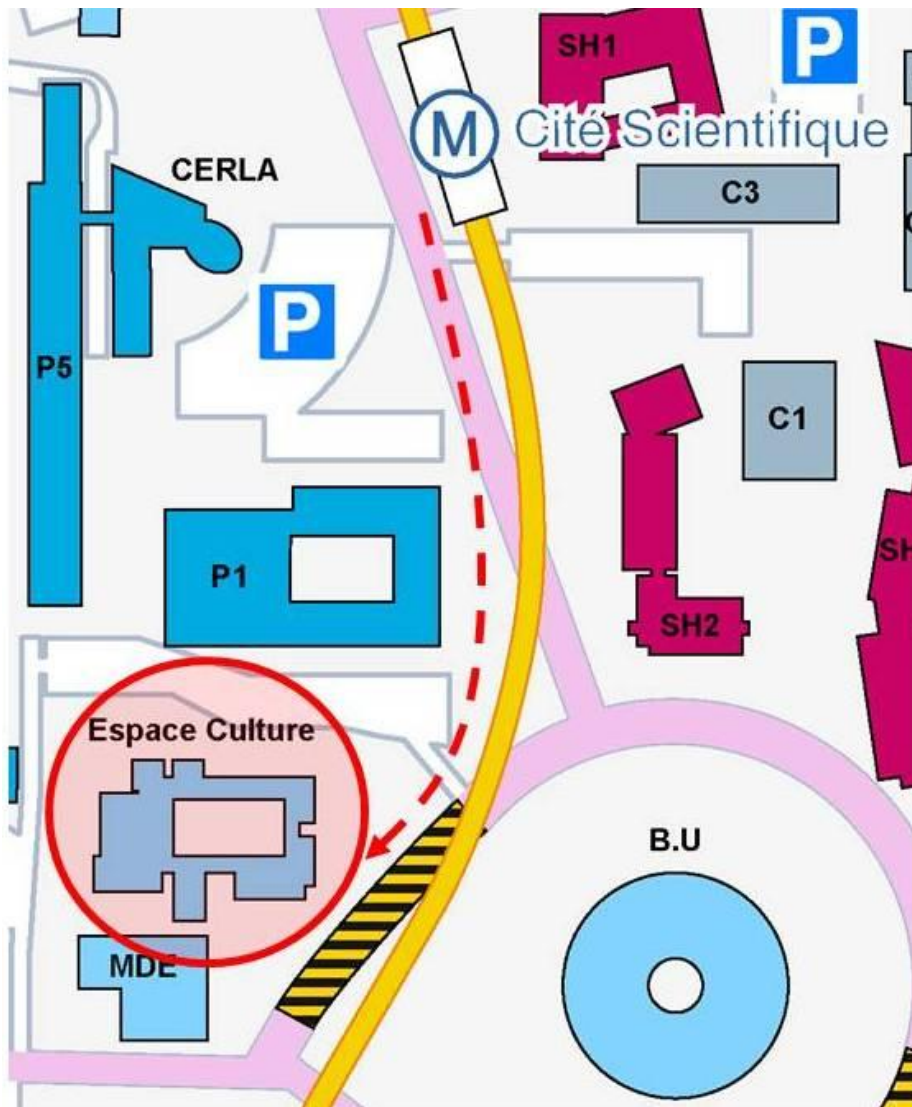

20-21 June 2013 Villeneuve d'Ascq France

Invited speakers

This conference is organized on the occasion of the closing of the Cross-border programme INTERREG IVA 2Seas “IDEA” involving partners from the Universities of Lille1, Lille2, Cambridge, Ghent, East-Anglia and SEPS Pharma. It aims to bring together participants from academia and industry involved in interdisciplinary materials science and pharmacy activities. This conference will focus on presenting recent developments and innovations in the field, especially those obtained under the IDEA project and discuss new strategies, directions and opportunities at European level. The conference is opened to scientists and researchers from academia and from industry and general scientifically interested public.
