

# Pharmaceutical materials and drug efficacy

## 4-5 July 2011

### Villeneuve d'Ascq, France

This workshop originates from the Cross-border Cooperation programme INTERREG IVA IDEA : Improving Drugs Efficacy and Availability. It is focused on presenting the most recent developments in understanding and controlling the physico-chemical properties of pharmaceutical solids (active substances and excipients) and their impact on the efficacy and bioavailability of drugs. The workshop is open to scientists and researchers from academia and from industry and will be held on 4-5 July at the University Lille1 in Villeneuve d'Ascq, France

For any further questions please contact the local organizers of the workshop:  
Marc Descamps (marc.descamps@univ-lille1.fr) and Frédéric Affouard (frederic.affouard@univ-lille1.fr).

Web-site : <http://idea.univ-lille1.fr>

#### Registration

**Registration is free of charge.**

Registration can be made via [isabelle.schack@univ-lille1.fr](mailto:isabelle.schack@univ-lille1.fr)

Isabelle Schack – Unité Matériaux Et Transformations (UMET) – BAT P5 – UFR de Physique 59655 Villeneuve d'Ascq FRANCE.

Tel : +33 (0)3 20 43 47 93

Fax : +33 (0)3 20 43 68 57

## Confirmed speakers

F. Affouard (University Lille1/CNRS, France)  
A. Almeida (University Ghent, Belgium)  
J.-R. Authelin (Sanofi-Aventis, France)  
P. Bordet (CNRS, Institut Néel, France)  
G. Coquerel (University Rouen, France)  
M. Descamps (University Lille1, France)  
J. Doucet (Novitom-Floralis, France)  
M. Eddleston (University Cambridge, UK)  
W. Jones (University Cambridge, UK)  
J. Siepmann (University Lille2, France)  
J. Ubbink (Food Concept & Physical Design "The Mill",  
Switzerland, University Bristol, UK)  
J-F. Willart (University Lille1/CNRS, France)

**There are a few remaining slots for contributed talks. Abstracts may be emailed to [marc.descamps@univ-lille1.fr](mailto:marc.descamps@univ-lille1.fr)**

## Conference Venue

Espace Culture - Université Lille 1

Cité Scientifique

Villeneuve d'Ascq France

Metro station : Cité Scientifique
